SUMMARY OF THE MILITARY RETIREMENT SYSTEM

As of September 30, 1983

The military retirement system, as summarized below, applies to the Army, Navy, Marine Corps, and Air Force. However, most of the provisions also apply to retirement systems for members of the Coast Guard (Administered by the Department of Transportation), officers of the Public Health Service (administered by HHS), and officers of the National Oceanic and Atmospheric Administration (administered by the Department of Commerce). The key provisions of the military retirement system are as follows:

- Nondisability retirement after 20 years of active service equal to (base pay) times (years of service) times (2½%). There is a limit of 75% of base pay. Base pay is equal to terminal basic pay if retiree first became a member of the Armed Services before September 8, 1980. If the retiree first became a member of the Armed Services on or after September 8, 1980, base pay is equal to the average of the highest 36 months of basic pay.
- . Disability retirement with similar provisions.
- . Reserve retirement with parallel provisions.
- Optional survivor benefit protections for retirees and retirement eligible reservists.
- CPI adjustments for both retirement pay and survivor annuities.
- No contributions by the Service members of the military Services and no retirement fund, but reductions in member annuities when survivor benefits are elected.
- . No vesting.
- . Interrelationships with Social Security, Veterans Administration benefits, and other Federal service.

Cost-of-Living Increases

All nondisability retirement, disability retirement, and most survivor annuities are presently adjusted annually for inflation. Cost-of-living (COLA) adjustments are scheduled to occur every twelve months, on March 1st, to be reflected in checks issued at the end of that month.

The cost-of-living increase effective March 1st is computed by calculating the percentage increase (adjusted to the nearest 1/10 of one percent) in the Consumer Price Index from the previous December to December.

Public Law 97-253 created a three year temporary deviation to the above calculation and timing of COLA's. In fiscal years 1983, 1984 and 1985, increases took or will take place in April, May, and June, respectively. Full COLA's will still be calculated as before. Instead of a full COLA, in FY83 and FY85, nondisabled retirees under age sixty-two will receive 3.3% plus the total amount that the full COLA exceeds 6.6%, if any. In FY84, non-disabled retirees under age sixty-two will receive 3.6% plus the total amount that the full COLA exceeds 7.2%.

The Bureau of Labor Statistics publishes two Consumer Price Indexes: (1) a CPI for All Urban Consumers, and (2) a revised CPI for Urban Wage Earners and Clerical Workers. OMB has determined that the revised CPI is used in calculating military cost-of-living increases.

Nondisability Retirement From Active Service

The current system allows voluntary retirement upon credit of at least 20 years of service at any age, subject to Service Secretary approval. The military retiree receives an immediate annuity calculated as $2\frac{1}{2}\%$ of base pay for each year of creditable service, subject to a maximum of 75% of base pay. Base pay is equal to terminal basic pay if retiree first became a member of the Armed Services before September 8, 1980. If the retiree first became a member of the Armed Services on or after September 8, 1980, base pay is equal to the average of the highest 36 months of basic pay. As a result of PL98-94, in calculating years of service for initial retired pay, all service is rounded down to the nearest month.

In FY83, 1.1 million nondisability retirees from active duty were paid \$13.0 billion.

Disability Retirement

If a military member is disabled, he/she is entitled to disability retired pay, assuming the disability is at least 30% (under a standard schedule of rating disabilities by the Veterans Administration) and either 1) the member has eight years of service; 2) the disability results from active duty or; 3) the disability occurred in the line of duty during a time of war or national emergency or certain other time periods.

In disability retirement, the member receives base pay multiplied by the larger of 1) $2\frac{1}{2}$ % times years of service; or 2) percent disability. The benefit cannot be more than 75% of base pay. Only the excess (1) over (2) is subject to Federal income taxes.

Members whose disability may not be permanent are placed on a temporary disability retired list and receive disability retirement pay just as if they were permanently disabled. However, they must be physically examined once every 18 months to determine any change in disability until a final determination is made within five years. While on the temporary disability retired list, the member receives base pay multiplied by the larger of 1) 2½% times years of service or; 2) percent disability with a minimum of 50% of base pay. Base pay is equal to terminal basic pay if retiree first became a member of the Armed Services before September 8, 1980. If the retiree first became a member of the Armed Services on or after September 8, 1980, base pay is equal to the average of the highest 36 months of basic pay.

In FY83, 140,000 disability retirees were paid \$1.4 billion.

Reserve Retirement

It is also possible for members of the reserves to retire after 20 years of service, the last eight of which must be in a Reserve Component. Reserve retired pay, however, does not begin until age 60. If the reservist was first a member of the Armed Services before September 8, 1980, the retired pay (base pay) is based upon active duty pay scales for the member's grade in effect at the time the retired pay commences. If the reservist first became a member of the Armed Services on or after September 8, 1980, retired pay is based upon (base pay) the average basic pay for the member's grade in the last three years that he/she was member of the Armed Services. The retired pay is computed as (base pay) times (2.5%) times (years of creditable service). The years of service is in turn determined using a point system, where 360 points convert to a year of service. Typically, a point is awarded for a day of service or a drill attendance, with 15 points being awarded for a year's membership in a Reserve Component.

In FY 83, 141,000 reserve retirees were paid \$1.1 billion.

Survivor Benefits

Legislation originating in 1953 provided optional survivor benefits later referred to as the Retired Serviceman's Family Protection Plan (RSFPP). The plan proved to be inadequate since the survivor annuities were never adjusted for inflation and could not be more than 50% of retired pay. RSFPP was designed to be self-supporting in the sense that member annuities were reduced so that the present value of the reductions would equal the present value of survivor annuities. However, no fund was involved.

RSFPP still insures those servicemen retired before 1972 who did not convert to the new plan and still pay survivor annuities. However, since

September 21, 1972, RSFPP has been replaced by the Survivor Benefit Plan (SBP) for new retirees. Under SBP, member annuities are also reduced but the SBP is not a self-supporting program; its costs are shared by the Government and retired members. The survivor annuity is originally 55% of the member's base amount. The base amount is elected by the member but can be no less than \$300 (or full retired pay if the monthly pay is less than \$300) and no more than the member's whole retired pay. SBP annuities are adjusted with CPI increases, and integrated with Social Security and Veteran's benefits.

For reserve retirees, the same set of reductions provide coverage after the reservist reaches age 60 (when the reservist begins to receive retired pay). A second set of optional reductions (funded by the employee only) extend this coverage to the reservist who has enough service to retire but who has not attained age 60.

In FY83, 86,000 surviving families were paid \$446 million.

Relationship With Social Security

Beginning in 1957, military members on active duty have been full participants in the Social Security System. Payments from the two systems are additive. However, there is a Social Security offset for surviving spouses of SBP participants equal to 100% of the Social Security benefit attributable solely to military service. The offset provisions apply only to a spouse with one child and spouses over age 62 who are not working in Social Security covered employment. At no time can a Social Security offset be greater than 40% of the survivor annuity.

Relationship With Veterans Administration Benefits

The Veterans Administration provides compensation to Service connected and certain non-Service-connected disabilities. This annuity can be in place of or in combination with DoD retirement pay (nondisability), but is not additive. Since VA annuities are exempt from Federal income taxes, it is sometimes to the advantage of a member to elect whatever VA benefits are available.

Veterans Administration benefits also overlap survivor benefits through the Dependence and Indemnity Compensation (DIC) program. DIC is payable to survivors of veterans who died from Service connected causes and are deducted from the SBP annuity.

<u>Interrelationship With Other Federal Service</u>

For retirement purposes, no credit is given for other Federal service, except where cross-service transferability is allowed. However, military service is generally creditable toward the Federal civilian retirement systems if military retired pay is waived. However, PL 97-253 requires a 7% contribution of basic pay received for future credit. Military service is

not generally creditable under both systems (but is for reservists and certain disability retirees). Retired regular officers employed by the Federal government lose a substantial portion of their retired pay while so employed. All retired members are subject to a combined ceiling equivalent to level V of the executive schedule.

Relationship of Retired Pay to Military Compensation

Basic pay is the only element of military compensation upon which retired pay is computed and entitlement is determined. Basic pay is the principal element of military compensation which all members receive; but it is not representative, for comparative purposes, of salary levels in the public or private sectors. Reasonable comparisons can be made, however, to basic military compensation (BMC). This is the base level of compensation received by members, and is the sum of basic pay, the quarters allowance (either cash or in kind) a subsistance allowance (either cash or in kind), and the Federal tax advantage accruing to allowances, since they are not subject to Federal income tax. Basic pay represents approximately 76% of BMC for retirement eligibles and 70% of BMC for the entire force. Since retired pay is a function of basic pay, the income replacement value of retired pay is significantly reduced through the design of the retired pay computation formula: that formula provides from 50% to a maximum of 75% of basic pay only for years of service over 20. As a percentage of preretirement income, as measured by BMC, the income replacement value is substantially lower. While a 20 year retiree is entitled to 50% of basic pay, that value is only 38% of BMC. Similarly, a 25 year retiree would be entitled to 62.5% of basic pay which is 48% of BMC. The maximum a member can receive is 75% of basic pay, representing only 57% of BMC, regardless of the years of service thirty or above. Consequently, comparisons of retired pay to other retirement systems must recognize the percentage relationship to BMC rather than to basic pay only.

FOOTNOTES TO NUMBER OF RETIRED MILITARY PERSONNEL BY YEAR, 1900-PRESENT

lFigures are as of 30 June in each year prior to and including 1975, except that some of the figures for Navy and Marine Corps Officers are as of 1 January. From 1976 on figures are as of 30 September.

²Emergency Officers Retired List (WWI), Reserve Officers Retired List (WWII) and P.L. 262, 77th Congress. Responsibility for payment of retirement benefits to the Reserve Officers Retired List was transferred to the Army and Air Force effective I July 1950. Omitted after 1965.

3Figures for 1910 and for 1917-1949, both inclusive, are wholly or partly estimated.

⁴Prior to 1 July 1950 the retired Air Force personnel are included in the Army figures.

5Estimated.

9

NOTE: Beginning with 1950 the figures represent the number of retired military personnel receiving retired pay, particularly during the 1940's. Honorary retirements are excluded in all cases, however.

Retiree figures include Non-disabled, Temporary Disabled, Permanently Disabled, Reserve Retired, and Fleet Reserve. DMDC - DoD Office of the Actuary

BY YEAR, 1900 - PRESENT NUMBER OF RETIRED MILITARY PERSONNEL RECEIVING RETIRED PAY (Excludes Honorary Retirements)

Officers (Including Female Medical)

Enlisted (Including Fleet Reserve)

AS A RESULT OF CERTAIN PROVISIONS FOR ADVANCEMENT ON THE RETIRED LIST OR UNDER THE "TOWER AMENDHENT" SOME INDIVIDUALS WOULD RECEIVE AMOUNTS DIFFERING FROM THOSE SHOWN ABOVE. "PAY SCALE" INDICATES ORIGINAL EFFECTIVE DATE OF CURRENT PAY STAIDS AT ITME OF RETIREMENT. FISURES REFLECT A ONE VEAR LOOK-BACK IF A HIGHER AMOUNT OF RETIRED PAY RESULTS. FIGURES SHOWN ASSUME THAT ACTIVE SERVICE AND PAY SERVICE ARE EQUAL. NOTE:

MILITARY RETIRED PAY REFLECTS CPI AND PAY INCREASES PRIOR TO AND INCLUDING JANUARY 1, 1984

*BOSED ON MILITARY SPCIFIC TABLESS. THE LUMP SUM EQUIVALENT IS THE AMOUNT OF MONEY REQUIRED TO BE ON HAND AT THE TIME OF STREMENT ALTERIAL MONEY ALTERIAL MONED TO BE IS.
INTEREST RATE WOLLD BE IS. ASSUMES ENTRY AGE 23 FOR OFFICERS AND WARRANT OFFICERS AND 20 FOR ENLISTED MEMBERS.

ACTIVE DUTY BASIC PAY CAP OF 5499.90 PER MONTH LEVELS OUT RETIRED PAY IN UPPER GRADES.

WARNING: THESE VALUES ARE CALCULATED USING SINGLE-LIFE ANNUITIES AND THEREFORE SHOULD NOT BE USED IN PROPERTY SETTLEMENTS INVOLVING MORE THAN ONE PERSON.

MILITARY RETIRED PAY, LUMP-SUM EQUIVALENT* AT RETIREMENT, AND ANNUAL DEPOSIT# NECESSARY TO ACCUMULATE THE LUMP-SUM EQUIVALENT* FOR NONDISABILITY RETIREMENTS AS OF JANUARY 1, 1984
